COVID-19 VACCINATION & TESTING RESOURCES

A note of thanks to all students, staff and faculty who have provided feedback on the University's vaccination/testing requirements in the Clinic.

The State of California and the County of Los Angeles Public Health have both issued Public Health Orders requiring all healthcare workers in the state/county to show proof of COVID-19 vaccination or be tested on a weekly basis. These Public Health Orders can be found at:

[CA State Public Health Officer Order of August 5, 2021](#)

[LA County Department of Public Health, Health Officer Order 08.12.2021](#)

The goal of the Yo San University (YSU) policy is to comply with both State and County public health orders. Details in the YSU policy, including acceptable forms of diagnostic screening tests are developed in accordance with guidelines published in these regulatory public health orders.

We understand that some of you may have concerns about vaccine safety and efficacy, as well as questions on access to diagnostic screening tests. Here are some resources that may help answer your questions, and provide additional information on COVID-19 vaccination and testing.

[COVID-19 Vaccines and Vaccination \(FDA\)](#)

[Comirnaty and Pfizer-BioNTech COVID-19 Vaccine \(FDA\)](#)

[Moderna COVID-19 Vaccine \(FDA\)](#)

[Janssen COVID-19 Vaccine \(FDA\)](#)

[COVID-19 Vaccines and Vaccination \(CDC\)](#)

[COVID-19 Vaccines and Vaccination \(LA County Department of Public Health LACDPH\)](#)

[How and Where to Get Vaccinated \(LACDPH\)](#)

[COVID-19 Testing for Healthcare Professionals \(LACDPH\)](#)

[COVID-19 Testing \(State of CA COVID-19 Site\)](#)

We will continue to monitor updates and developments from public health regulatory agencies, and provide additional resources to the YSU community as soon as these become available.

Thank you for your understanding and cooperation.
