

YSU Sponsored COVID Testing

Yo San University of Traditional Chinese Medicine is partnering with COVID Testing Today to make COVID-19 testing available to our students, faculty, and staff at no cost to the person getting tested. You are eligible for this testing for any reason. Test results will be sent both to the person being tested and to YSU Administration.

To take advantage of this testing, please see the Clinic Manager. You will be asked to collect your own sample in the presence of the Clinic Manager, or other YSU administrator, and leave the sample with the Clinic Manager when you are done. If your schedule does not align with the Clinic Manager's regular work hours, please contact the Clinic Manager to schedule a time when another YSU administrator can help you with the sample collection.

Important:

- **The laboratory will not process a sample without patient information.**
- **This is why everyone must be registered (using the QR code at the end of this document.)**
- You will also receive a text message and an email so you can register with Flow Health to see a record of your test results. **Please do not ignore these messages.** YSU will not receive your test results if you do not register with Flow Health.

How to collect samples:

- Every patient must be registered in our portal (use the QR code or [link](#) provided)
- Fill in the paper patient information form.
- Write Name and Date of Birth on an empty label (label with a barcode, then stick it on the tube)

Samples can be collected in one of two ways:

1. Shallow Nasal Swab:

- Sample the nasal wall by rotating the swab in a circular path against the nasal wall at least 4 times.
- Repeat in the other nostril using the same swab

OR

- ### **2. Oral swab:** 3 to 5 seconds to rub the inside of each cheek, and 2 seconds in the back of the throat.

DO NOT DRINK OR EAT AT LEAST 15MIN BEFORE DOING THE TEST

- Place swab, tip first, into the transport tube provided, then into the biohazard bag
- Place patient information in a biohazard bag as well.
- Place sample biohazard bag into a white return envelope

MAKE SURE THE TUBE IS PROPERLY CLOSED TO PREVENT ANY KIND OF LEAKAGE

Yo San University

If you are not registered:

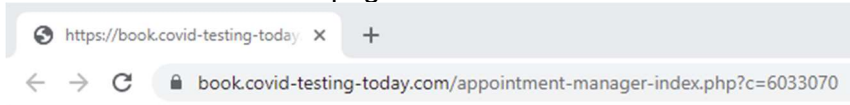

*The laboratory cannot process
your sample*

To register, scan this QR code or go to:

<https://book.covid-testing-today.com/?YoSanUniversity>

You will be sent to a webpage that looks like this:

Yo San University

Country code:

+1

Cell phone number:

Send login code

Enter your cell phone number and click to “Send login code”. A text message will be sent to the cell phone number you just entered. Enter the 4-digit validation code that was texted to you and click to “Validate code”. If you have not previously registered, you will see the following message:
Enter the 4-digit validation code that was texted to you and click to “Validate code”.

No one is registered with this phone number yet.

Register a new person

Register a new person

Click “Register a new person” to continue with the registration. You will then be asked to choose a date for your testing. Enter your chosen date and click “Choose this date” to continue.

For the next section, you will need a copy of both the front and the back of your insurance card or ID (if you don't have an insurance card) that you can upload as part of this form. The webpage will look like the following:

Appointment date:

Who is this test for?:*

First name:*
